

FSC CoC Policy

With the aim of becoming a constant leader in our sector surrounded with a competitive environment developing in India. Our purposes throughout all of our processes and products are to meet demands of our customers regarding the product and service quality, to offer solutions in order to increase their success and to supply legal forestry products of which compliance is confirmed by supporting protection of the forestry resources.

In order to achieve this objective and to ensure continuous improvement and sustainability, we will follow the principles below;

- Being always in compliance with the related standards and rules specified in the related laws and regulations.
- Being always in compliance as the leading companies in our sector about environment, Occupational Health, and Safety
- Being customer-oriented, listening to the voice of our customers and ensuring customer satisfaction continuously.
- Providing opportunities for further improvement to our employees and suppliers with team spirit
- To follow FSC core labor requirements
- To review and increase efficiencies of our business processes and to constantly develop our product/service quality by focusing on product development
